

Method of Payment

Follow these steps to set up methods of payments

1. Click **Accounts payable > Payment Setup > Methods of payment.**
2. Click **New** to create a line.

The screenshot displays the 'Methods of payment - vendors' configuration page. The 'Method of payment' field is set to 'Cash', 'Period' to 'Invoice', 'Description' to 'Cash Payment', 'Grace period' to '15', and 'Payment status' to 'None'. The 'Payment type' dropdown is open, showing 'Other', 'Check', 'Electronic payment', and 'Promissory note'. The 'Allow copies of payments' checkbox is set to 'No'. Below these fields are sections for 'FILE FORMATS' (Generic electronic Export format, NACHA (AT) (US), Generic electronic Return format) and 'INVOICE UPDATE' (Create and post draw journal aut., Run export script). The left sidebar shows 'Cash invoice' selected under 'Finance and Operations'.

3. In the **Method of payment** field, enter an identifier, such as Cash. **(Mandatory)**
4. In the **Period** field, select the period for which invoices in automatic payment proposals are combined:
 - **Invoice** – One payment transfer is created for each invoice.
 - **Date** – All invoices for a vendor or customer that have the same due date are combined.
 - **Week** – All invoices for a vendor or customer that have a due date in the same week are combined.
 - **Total** – All invoices for a vendor or customer are combined into one payment.
5. In the **Description** field, enter a name or short description for the method of payment.
6. In the **Grace period** field, if applicable, enter the number of days after the specified period when the vendor or customer is eligible for a cash discount.
7. In the **Payment status** field, select the payment status that must be fulfilled to post a payment that is assigned this method of payment. For a method that uses checks, the status is often **Received** or **Sent**.

8. Click the **File formats** FastTab. In the **Export format** field, select the export format for this method of payment. (For Check Payment Only)
9. Click **Close** to close the form and save the changes.
