

Create User account for Vendors for Vendor collaboration module in Microsoft Dynamics 365 Finance and Operations

Vendor collaboration is a module where a company using Microsoft Dynamics 365 grants their Vendors limited access of Microsoft Dynamics 365 to work with their Request for quotations, Purchase orders, Vendor invoices, consignment inventory and so on.

The vendor collaboration interface in Microsoft Dynamics 365 exposes limited information to external vendors and ensures the shared view on responses to Request for quotations, Purchase orders and Vendor Invoices which improves the communication between a company and its vendors when vendors directly collaborate using their interface.

In this article, we shall learn how:

- To create the Vendor and contacts
- To raise Vendor user creation request and get approval
- To create Vendor user account

Create the Vendor contacts, User request and the user id provision:

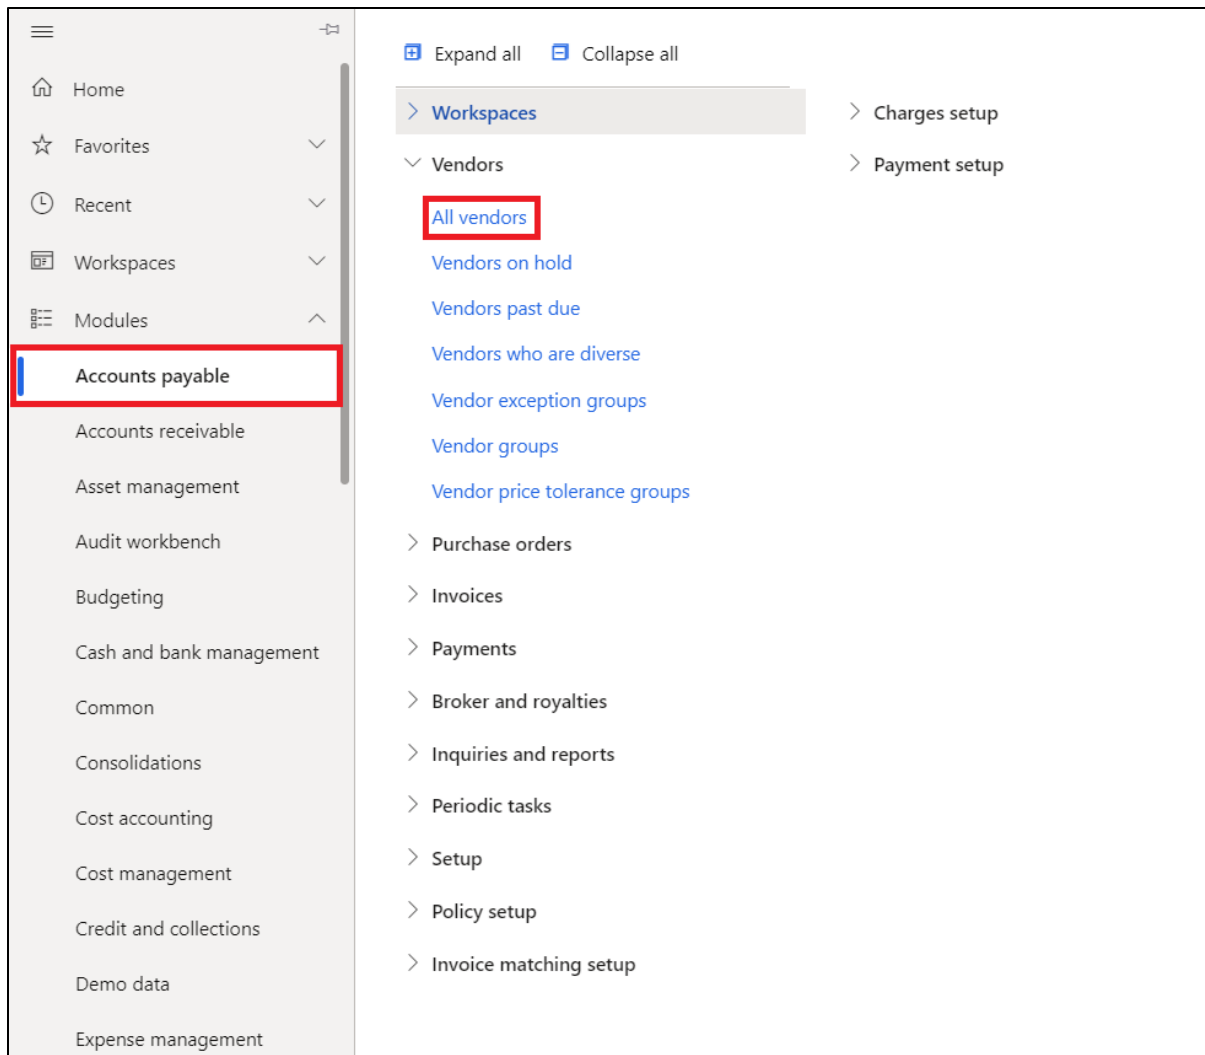

The Vendor collaboration starts when your company provides the access to the contact persons of your vendor. To provide the access to the Vendor, complete the following setups.

Create the Vendor and Vendor contacts:

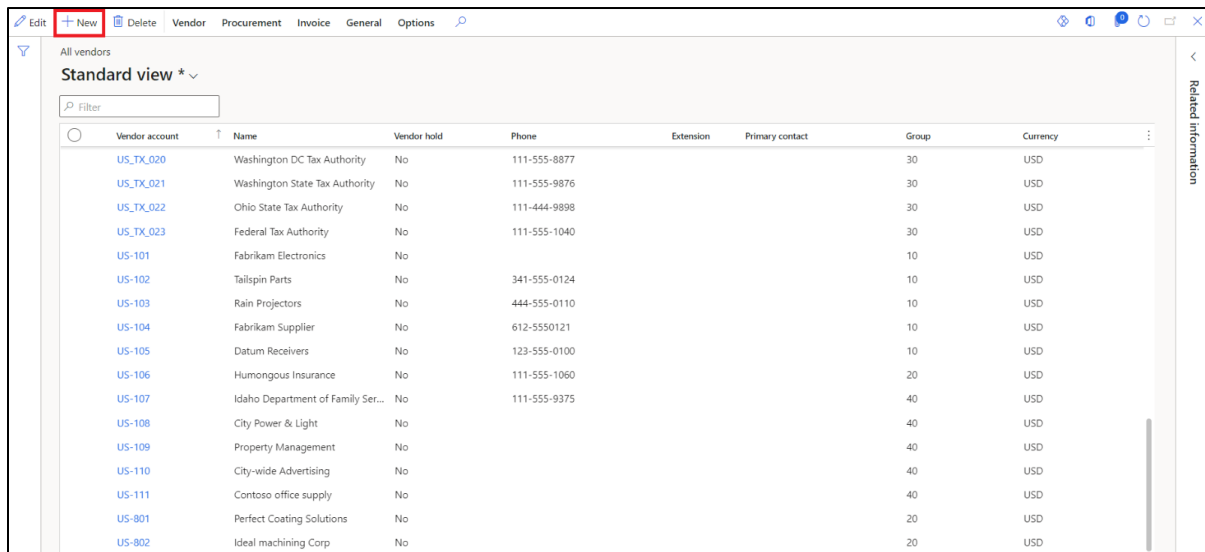

If you want to give access to someone to the vendor collaboration interface, you must add them as a contact person of your Vendor. You can also add the contacts for employees of your Vendor who might not use the vendor collaboration. For example, they could be the point of contact for other kinds of procurement information.

The contacts are added on the All vendors page. To add the Vendor contact person, Navigate to:

Accounts payable > Vendors > All vendors

On the All vendors page, click the New button.

Enter the Vendor account number.

Enter the Vendor name.

Select the Vendor group.

Click the Save button.

The screenshot shows the 'New Record' form for a Vendor in the 'General' tab. The 'General' tab is highlighted with a red box. The form contains several sections: 'IDENTIFICATION' with fields for Vendor account (VC-0001), Type (Organization), and Payment priority; 'ORGANIZATION DETAILS' with fields for Name (Fabrikam Electronics Ltd.), Search name (Fabrikam Electronics), Group (10), Number of employees (0), and Organization number; 'ABC code' (None), 'DUNS number', and 'OTHER INFORMATION' (Address books); 'Known as', 'Phonetic name', and 'Language' (en-us); and 'VENDOR COLLABORATION' with Collaboration activation (Not Active). The 'Addresses' and 'Contact information' sections are collapsed. The top navigation bar includes tabs for Save, New, Delete, Vendor, Procurement, Invoice, General, and Options. The 'Vendor' tab is active, and the 'Contacts' dropdown menu is open, showing 'View contacts' and 'Add contacts' options.

Contacts are the contact persons of the Vendor. They can have the access to Vendor collaboration interface once the access to get a new user is approved.

After saving the new Vendor record, to create a vendor contact person, click the Contacts > Add contacts button in the Vendor tab.

The screenshot shows the 'VC-0001: Fabrikam Electronics Ltd.' form in the 'General' tab. The 'General' tab is highlighted with a red box. The form contains several sections: 'IDENTIFICATION' with fields for Vendor account (VC-0001), Type (Organization), and Payment priority; 'ORGANIZATION DETAILS' with fields for Name (Fabrikam Electronics Ltd.), Search name (Fabrikam Electronics), Group (10), Number of employees (0), and Organization number; 'ABC code' (None), 'DUNS number', and 'OTHER INFORMATION' (Address books); 'Known as', 'Phonetic name', and 'Language' (en-us); and 'VENDOR COLLABORATION' with Collaboration activation (Not Active). The 'Addresses' and 'Contact information' sections are collapsed. The top navigation bar includes tabs for Save, New, Delete, Vendor, Procurement, Invoice, General, and Options. The 'Vendor' tab is active, and the 'Contacts' dropdown menu is open, showing 'View contacts' and 'Add contacts' options.

Enter the contact person Name in the General tab.

Click the Add button in the Contact information tab.

The screenshot shows a 'New Record' form for 'FABRIKAM ELECTRONICS LTD.' in the 'General' tab. The form includes sections for 'CONTACT', 'NAME DETAILS', 'PERSONAL INFORMATION', 'OTHER INFORMATION', 'STATUS', and 'VENDOR COLLABORATION'. The 'CONTACT' section has fields for Contact ID (000016), Contact for (Fabrikam Electronics Ltd.), First name (George), Middle name (A), Last name prefix, Last name (Weas), and Search name (George A Weas). The 'NAME DETAILS' section has fields for Personal title, Personal suffix, Display as (FirstMiddleLast), and Gender. The 'PERSONAL INFORMATION' section has fields for Marital status (None) and Language (en-us). The 'STATUS' section has a toggle for Inactive (No). The 'VENDOR COLLABORATION' section has a toggle for Vendor collaboration access allowed (No). Below these sections is the 'Addresses' section, followed by the 'Contact information' section. In the 'Contact information' section, the '+ Add' button is highlighted with a red box. Below the 'Add' button is a table with columns: Description, Type, Contact number/address, Extension, Primary, and a dropdown menu. The table is currently empty.

Enter the Contact information description in the Description field.

Select Email address in the Type field.

Enter the email address of the Contact person in the Contact number/address tab.

Mark the email as primary.

Click the Save button.

The screenshot shows the same 'New Record' form for 'FABRIKAM ELECTRONICS LTD.' in the 'General' tab. The 'CONTACT' section fields are the same. The 'NAME DETAILS' section has Personal title, Personal suffix, Display as (FirstMiddleLast), and Gender. The 'PERSONAL INFORMATION' section has Marital status (None) and Language (en-us). The 'STATUS' section has a toggle for Inactive (No). The 'VENDOR COLLABORATION' section has a toggle for Vendor collaboration access allowed (No). Below these sections is the 'Addresses' section, followed by the 'Contact information' section. In the 'Contact information' section, the '+ Add' button is highlighted with a red box. Below the 'Add' button is a table with columns: Description, Type, Contact number/address, Extension, Primary, and a dropdown menu. The table now contains one row: Email, Email address, georgeweas4@gmail.com, and the Primary checkbox is checked.

New user request:

Once the Contact person is created for the Vendor, Vendor collaboration user request can be raised by a procurement professional, or by an external vendor who has Vendor admin (external) role associated to their user id.

External vendor admin can submit new user request from the All contacts page in the Vendor collaboration module.

Procurement professional can raise a new user request from the Contacts page.

To raise a new user request as a procurement professional, on the selected Contact page, click the Provision vendor user button in the Contact tab.

The screenshot displays the 'Provision vendor user' page in the SAP Vendor Collaboration module. The top navigation bar includes tabs for 'Contact', 'Competencies', 'Market', 'General', and 'Options'. The 'Contact' tab is active, and the 'Provision vendor user' button is highlighted. The main content area shows the contact details for '000016 : George A Weas'. The 'General' section includes fields for 'CONTACT' (Contact ID: 000016, Contact for: Fabrikam Electronics Ltd., First name: George), 'NAME DETAILS' (Middle name: A, Last name prefix, Last name: Weas, Search name: George A Weas, Personal title, Personal suffix, Display as: FirstMiddleLast), 'PERSONAL INFORMATION' (Gender, Marital status: None, Language: en-US), and 'STATUS' (Inactive, Vendor collaboration access allowed: No). A 'Show more fields' button is also present. The right sidebar shows 'Related information'.

On the Provision vendor user page, the contact person details are shown automatically.

Enter the reason for the new user in the Business justification field.

Business justification

Dear concern, Requesting to please provide the access to vendor collaboration module for George A Weas contact person of Fabrikam Electronics Ltd.

Legal entities the person is a contact for

Legal entity in my company	Legal entity in customer company	Inactive	Vendor collaboration access allowed
Fabrikam Electronics Ltd.	Contoso Entertainment System ...	No	☒

Submit **Cancel**

In the Legal entities the person is contact for tab, in the 'Vendor collaboration access allowed' field, mark Yes in the legal entity the contact person is allowed to access the records for.

In the Assign user roles tab, select Yes in the roles to assign to the new user.

Click the submit button.

Provision vendor user

Legal entities the person is a contact for

Legal entity in my company	Legal entity in customer company	Inactive	Vendor collaboration access allowed
Fabrikam Electronics Ltd.	Contoso Entertainment System ...	No	☒

Assign user roles

Role description	Assign
Maintains vendor documents and responds to vendor inquiries in the vendor collaboration interface.	☒
Maintains vendor contact persons and vendor user requests	☒

Submit **Cancel**

The new user request has been submitted for the approval. Once the request has been processed, the contact person will be granted the access to vendor collaboration interface.

Once the vendor user request is submitted, the 'Vendor collaboration access allowed' field is set to Yes and a user request workflow is started. As part of the

workflow, a new user is created, and the selected security roles are assigned to that user. In addition, the User is created on the Azure active directory.

The submitted request is shown in Vendor collaboration user requests list in the Vendor collaboration module, and in the Vendor collaboration user request list in the Procurement and sourcing module.

To see the new user request, click the Vendor collaboration user requests button in the Contact tab.

The screenshot shows the 'Vendor collaboration user requests' form for a contact named 'George A Weas'. The form is divided into several sections: 'CONTACT' (Contact ID: 000016, Contact for: Fabrikam Electronics Ltd., First name: George), 'NAME DETAILS' (Middle name: A, Last name prefix, Last name: Weas, Search name: George A Weas, Personal title, Personal suffix, Display as: FirstMiddleLast), 'OTHER INFORMATION' (Address books, Language: en-us), 'PERSONAL INFORMATION' (Gender, Marital status: None), and 'STATUS' (Inactive, Vendor collaboration access allowed: Yes). A blue notification bar at the top states: 'The vendor collaboration access setting has been successfully applied and the request to create a new user has been submitted. Once your request has been processed, the status of the user request will be set to Completed.'

Vendor collaboration user requests page shows the submitted request that has a status of Pending approval.

The screenshot shows the 'Vendor collaboration user requests' list for 'GEORGE A WEAS'. The list is in 'Standard view' and contains one request with the status 'Pending approval'.

Request ID	Request action	Email	Name	Status	Business justification
0000005	Add user	georgeweas4@gmail.com	George A Weas	Pending approval	Dear concern, Requesting to please provide the access to

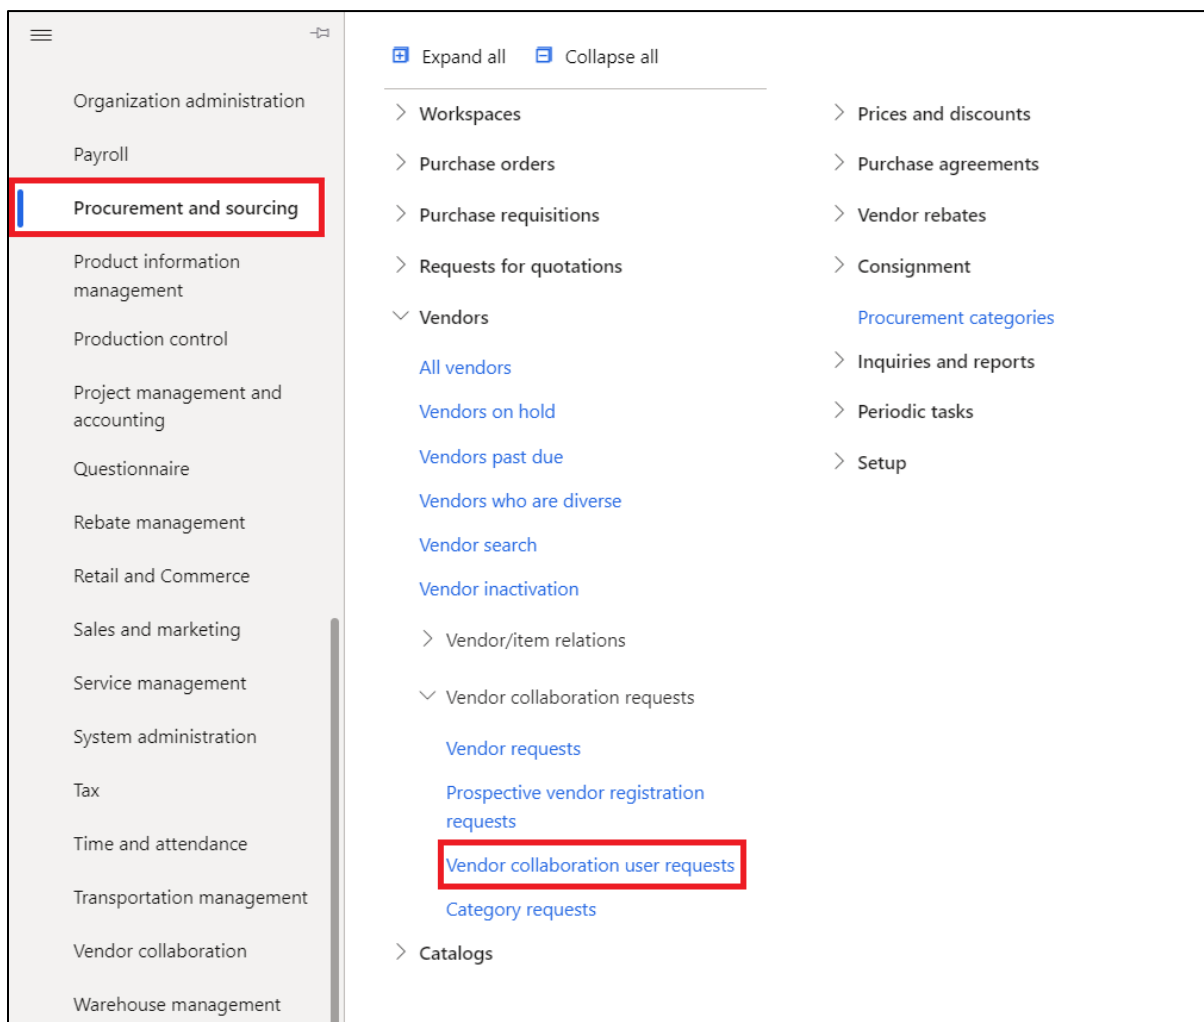

Provision a user id:

Now let us login with the user who has the access to approve the Vendor collaboration user requests as per the workflow.

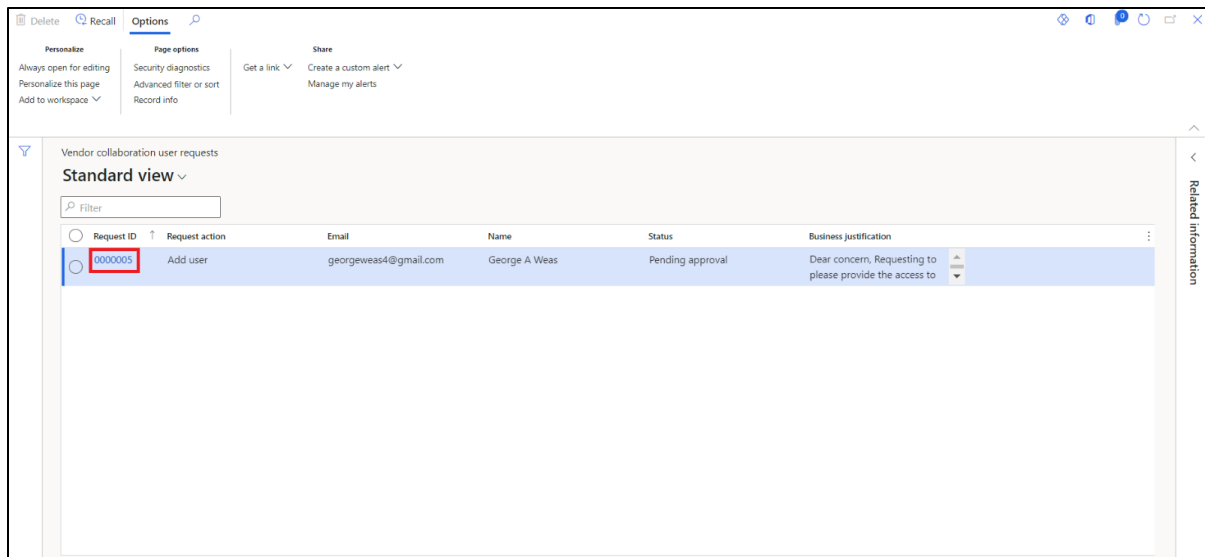

Note: The Vendor collaboration user requests workflow is pre-configured in the DAT entity that works for all the legal entities and 'Admin' user is set as the approver. You can find the workflow on System administration > Workflow > User workflows with the workflow name 'Vendor user request (new user or modify user).'

To approve the new Vendor collaboration new user request, Navigate to:

Procurement and sourcing > Vendors > Vendor collaboration requests > Vendor collaboration user requests

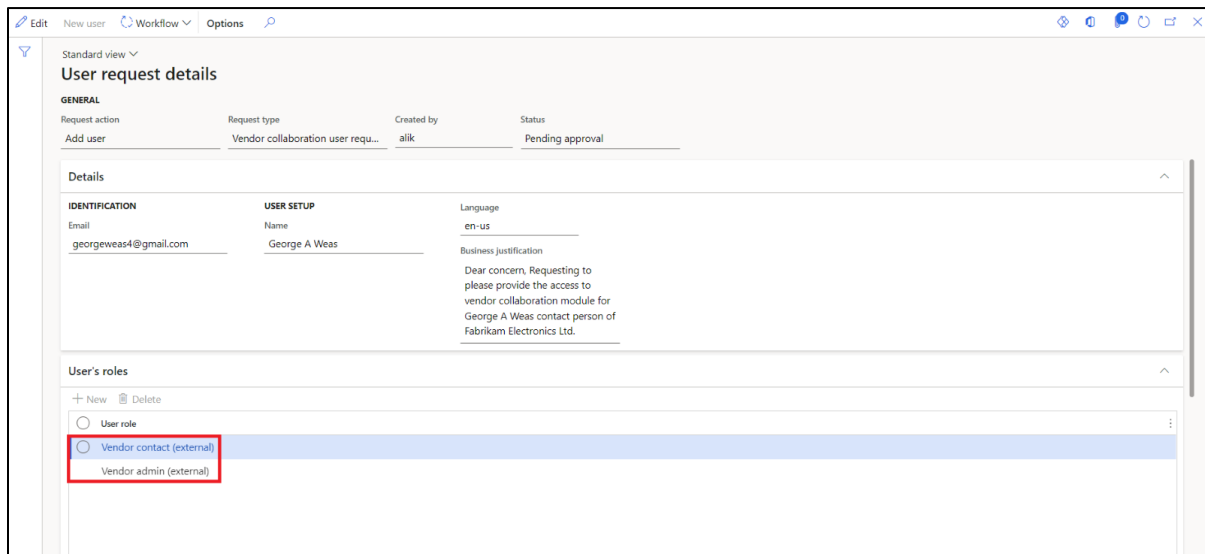

On the Vendor collaboration user requests page, click the Request id.

After clicking the Request id, the User request details page is shown.

User request details page shows the Request type, Request status, contact person name, email id for the contact person, business justification, the requested security roles, and the legal entity that a user needs the access to.
