

Daily Depreciation of fixed assets

Steps

1. Create Fiscal Calendar with unit “Days”
2. In fixed assets books screen, assign fiscal calendar that we created in step 1 in “Calendar” field
3. In deprecation Profile screen, choose Depreciation year field to be “Fiscal”, and period frequency to be “Fiscal period”
4. Acquire fixed asset and run depreciation proposal

Create fiscal calendar with days

- Path: General ledger > Calendar > Fiscal Calendar
- Click on “New calendar” and fill name and description and define year
- In “Length of period” choose 1
- In “Unit” field choose days

ar [+ New calendar](#) [+ New year](#)

Run Fixed asset process (Acquisition, Depreciation, and sale)

- After setup you can create fixed asset group and assign our book, we create in slide 5 and proceed with acquiring fixed asset
- System will automatically calculate depreciation periods based on number of days in service line years

The screenshot displays the SAP configuration for a fixed asset book. The left sidebar shows the book selection: 'IT-000000001 : Book Daily' with 'Open' and 'Current' status. The main area is titled 'Books | IT-000000001 : Laptop HP | Standard view'. The 'Depreciation' section is active, showing the 'DEPRECIATION PROFILE' with 'SLSL' selected. The 'EXTRAORDINARY DEPRECIATION PROFILE' is also visible. The 'DEPRECIATION' section includes a toggle for 'Calculate depreciation' set to 'Yes', and dates for 'Placed in service' (1/1/2024) and 'Depreciation run date' (1/1/2024). The 'ALTERNATIVE DEPRECIATION PROFILE' section is also present. The right sidebar contains input fields for 'Service life' (10.00), 'Depreciation periods' (3653), 'Depreciation periods remaining' (3,562.00), 'Expected scrap value' (0.00), 'Expected scrap value in reporting curr...' (0.00), and 'Depreciation convention' (None). Red boxes highlight the 'SLSL' profile, the 'IT-000000001 : Book Daily' title, and the 'Service life' and 'Depreciation periods' fields.
