

How to Transfer a Product in D365 (Transfer Order):

Process Flow Mapping:

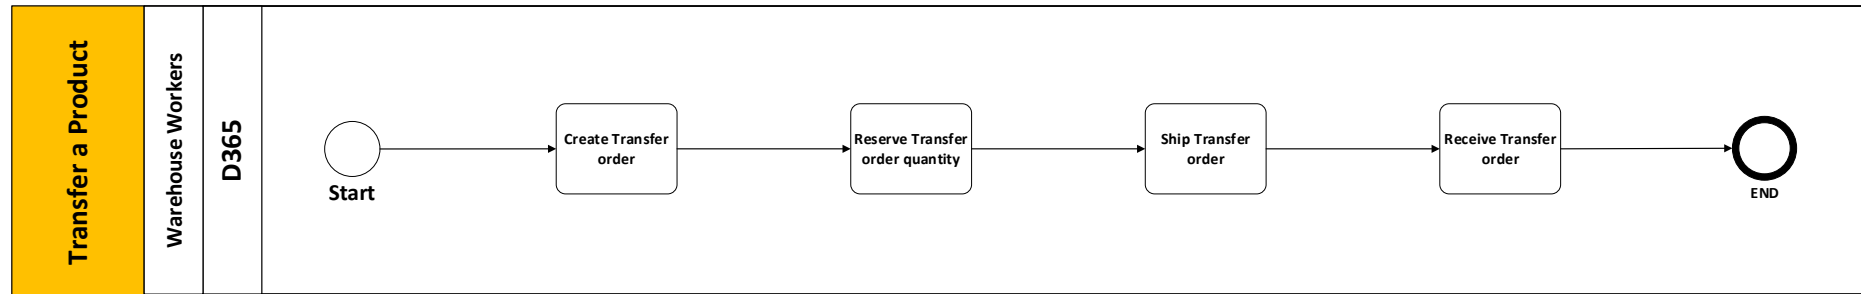

Figure 1 Process Flow Mapping for Transfer of a product (As-Is).

Steps for Creating Transfer Order in Microsoft Dynamics D365:

- Step-1. Navigate to **Module** then to “**Inventory Management > Inbound Order> Transfer Orders**”.
- Step-2. Click on “**+New**” in the “**Action Pane**”, and a new transfer order with transfer order no "**ITfr0000075**" will be created.

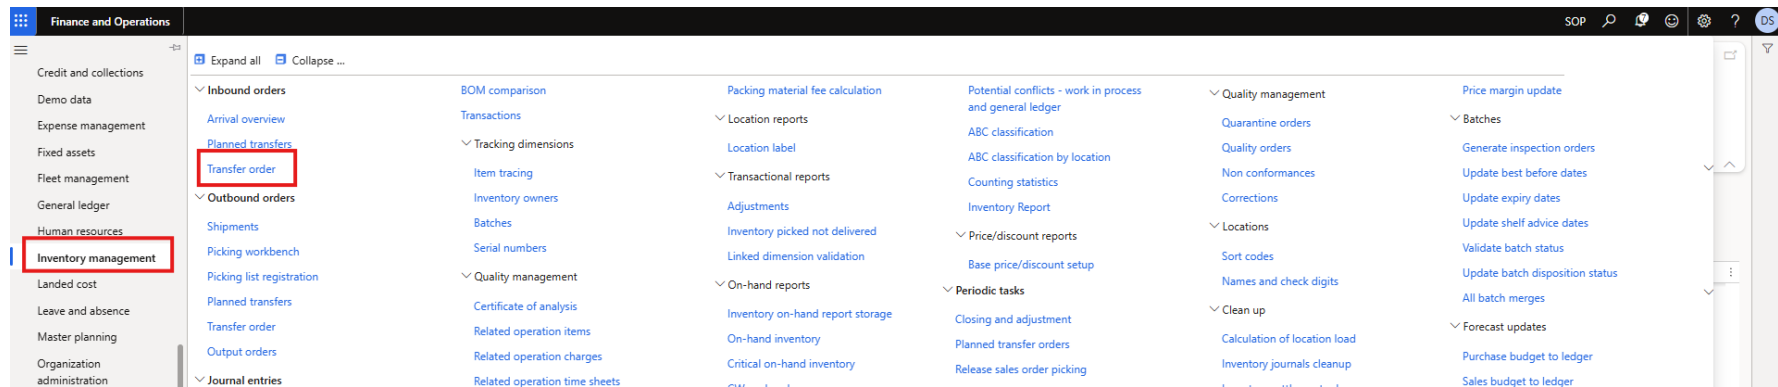

Figure 2 Navigation for transfer orders

Figure 3 Creating a new transfer order

Step-3. On the transfer order form, in the Transfer order headed FaTab select the “**Main**” in the field From Warehouse from the drop-down menu, and “**WMS1**” in the field To Warehouse from the drop-down menu.

Steps for Receiving Transfer Orders in Microsoft Dynamics D365:

Step-1. To receive the transfer order, click on **“Receive>Operations>Receive”** from the **Action Pane** on the transfer order form window, and the receive form window will open.

The screenshot displays the Microsoft Dynamics 365 interface for a Transfer Order. The top navigation bar shows 'Finance and Operations' and the breadcrumb 'Inventory management > Inbound orders > Transfer order'. The 'Action Pane' on the left contains a 'Receive' button, which is highlighted with a red box. Below the 'Receive' button, the 'Operations' section is visible, also containing a 'Receive' button. The main area shows the 'Transfer order: ITfr00000075' with a 'Shipped' status. The 'Transfer order header' section includes fields for 'From warehouse' (MAIN), 'To warehouse' (WMS1), 'Ship date' (10/28/2024), 'Receipt date' (10/28/2024), and 'STATUS' (Shipped). The 'Transfer order lines' section shows a table with one line item: 'SS-C' with a quantity of 1.00, ship date of 10/28/2024, receipt date of 10/28/2024, and product name 'Silver Concentrate A'.

Step 3. Inventory transactions will be displayed, and we can see from which warehouse the item is sold/transferred and in which warehouse the item was purchased/received. Additional information like “**Item number**”, “**Quantity**”, “**Unit**”, “**License plate**”, and “**Location**” is also displayed as well.

The screenshot shows the SAP 'Inventory transactions' interface. The table displays four transactions. Red boxes highlight the following fields: Item number, Physical date, Financial date, Reference, Number, Receipt, Issue, Quantity, Unit, CW quantity, CW unit, Cost amount, Site, Warehouse, Location, and License plate.

Item number	Physical date	Financial date	Reference	Number	Receipt	Issue	Quantity	Unit	CW quantity	CW unit	Cost amount	Site	Warehouse	Location	License plate
