9	Price Difference for Moving Averages	Price Difference for Moving Averages	
10	Cost Revaluation for Moving Averages	Cost Revaluation for Moving Averages	

* = Only used when Fixed receipt is marked on the inventory model group. (Rarely used)

‡ = The Inter-unit payable and Inter-unit receivable accounts are used to post profit or loss incurred. This occurs when transferring between different product dimensions in the same site takes place, and when transferring between different sites. Profit or loss can occur. This occurs when different product dimensions have different costs, or if different sites have different costs for the same item.

‡ = Only used when Moving Average is marked on the inventory model group.
