

Create Production Order D365:

Step-1. Open “D365 F&O” Environment.

Step-2. Navigate to **Module>Production Control > Production Orders > All production orders**.

Step-3. Click on “New production order” from the Action Pane.

Step-4. A new Create production order form will open

- A. Item number = “**P-000016**”
- B. Site = “**1**”
- C. Warehouse = “**Cart-1**”
- D. Batch number = “**0005-B1201**”
- E. Location = “**Ship**”
- F. Inventory status = “**Available**”
- G. Quantity = “**10**”
- H. Pool = “**Cart Pool**”
- I. Click “**Create**”
