Manpower Requisition Automation

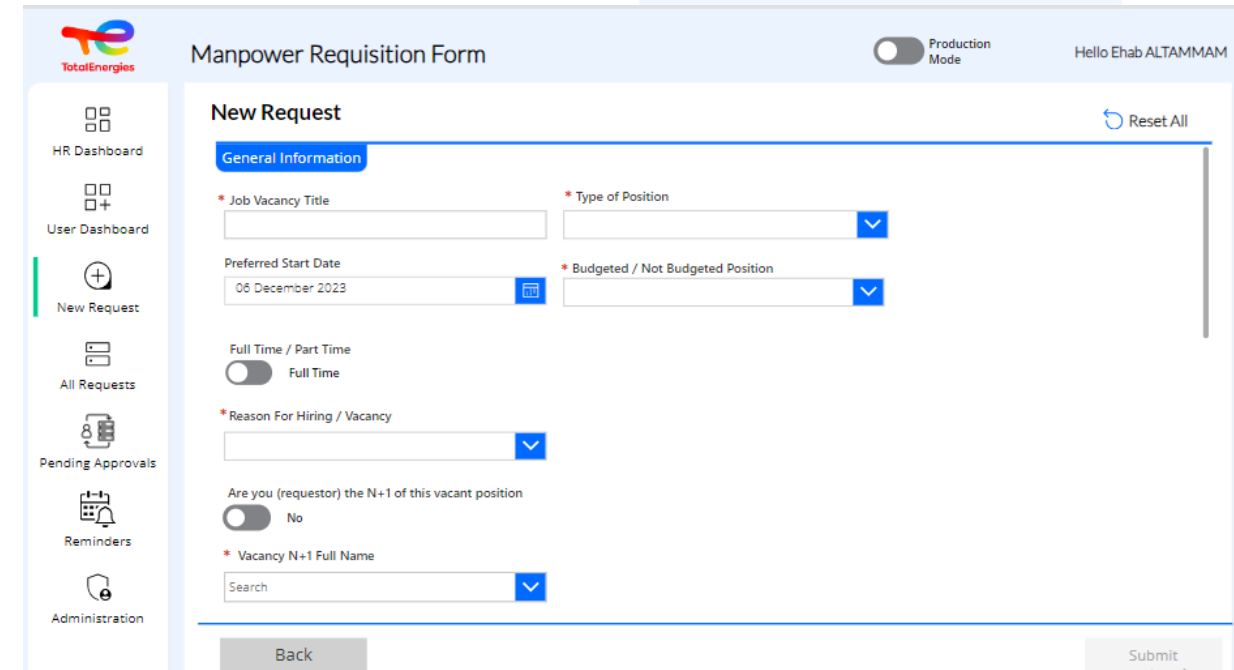

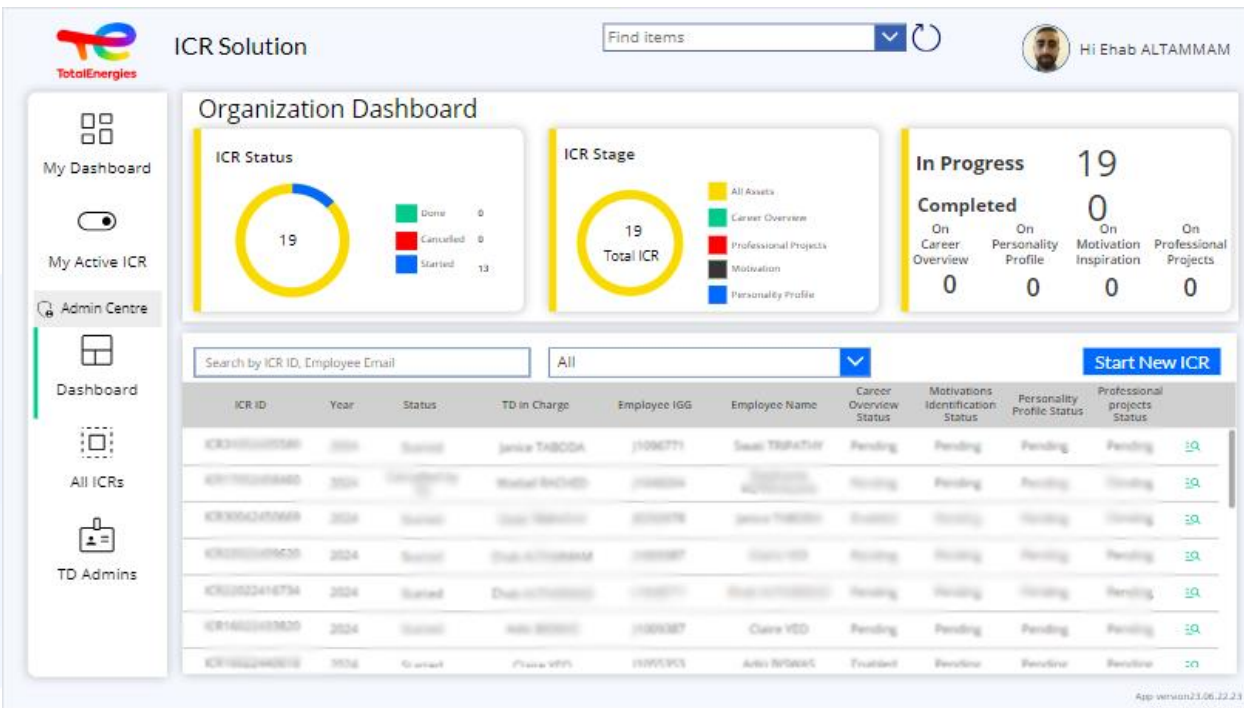

Customer: 

Country: Singapore
Industry: Oil & Gas

Project overview: Automating the Manpower Requisition process within Total Energies

Problems: The process was done manually and using forms, lack of tracking, reporting, and dashboards.

Solution: 100% Digitization & Automation, forms transformed into friendly interfaces in Power Apps, with the solution providing tracking, reporting, and dashboards.

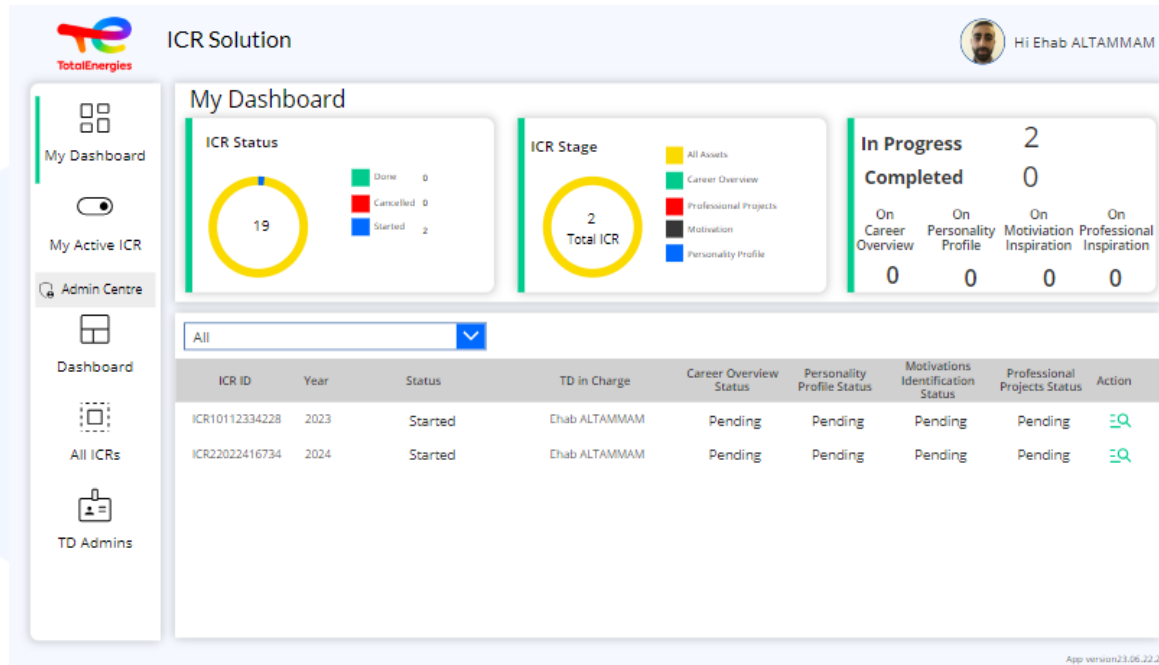

The screenshot displays the 'Manpower Requisition Form' with a sidebar containing navigation options: HR Dashboard, User Dashboard, New Request, All Requests, Pending Approvals, Reminders, and Administration. The main content area is titled 'New Request' and includes a 'Reset All' button. The 'General Information' section contains the following fields:

- * Job Vacancy Title
- * Type of Position
- Preferred Start Date: 05 December 2023
- * Budgeted / Not Budgeted Position
- Full Time / Part Time: Full Time
- * Reason For Hiring / Vacancy
- Are you (requestor) the N+1 of this vacant position: No
- * Vacancy N+1 Full Name

At the bottom, there are 'Back' and 'Submit' buttons.

TALENT DEVELOPMENT PROCESS AUTOMATION (ICR)

Part of HR work is to improve their employees' skills sets. In Total Energies, there is a specific department for this job called - Talent Development and have their own custom Talent Development business flow and forms. This solution will automate the process of TD in a way that matches Total Energies business flow

Onboarding & Offboarding processes

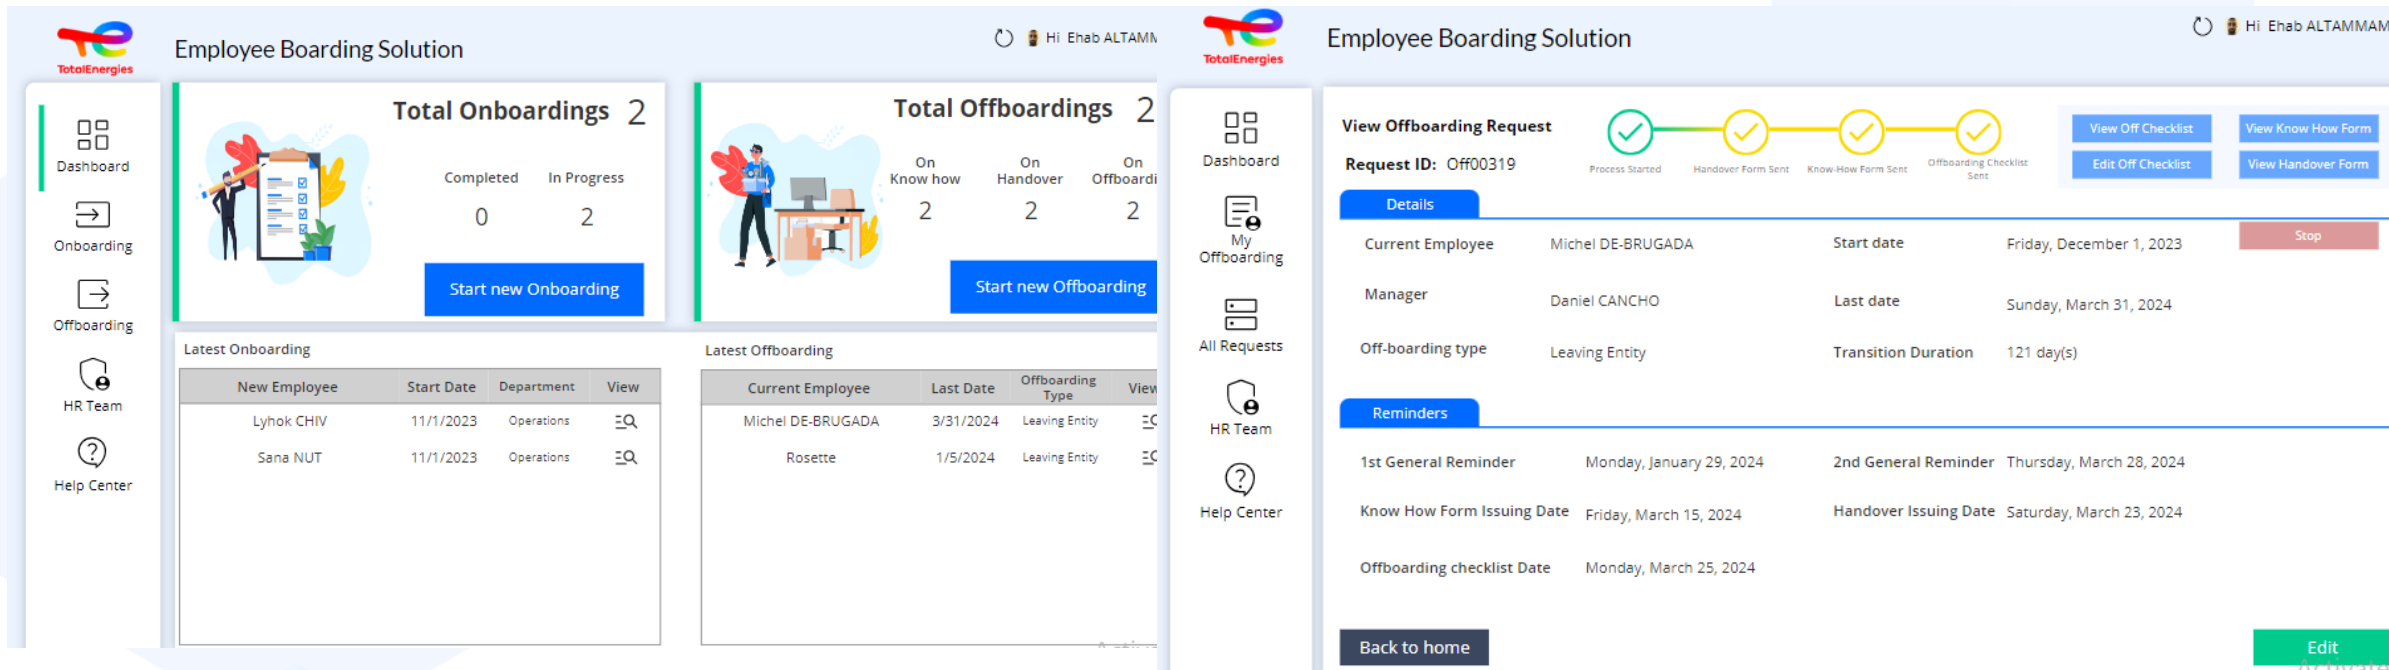

Customer:  TotalEnergies

Country: Singapore
Industry: Oil & Gas

Project overview: Make it easy for the new employees to know the organization and its teams

Problems: No proper scheduling and reminders, no clear staging, no proper tracking, record storing problems, no dashboards.

Solution: The solution provided scheduling and reminders, e-confirmation of each stage, better tracking, records handovers for new employee, and dashboards.

The screenshot displays the 'Employee Boarding Solution' dashboard for a user named 'Hi Ehab ALTAMM'. The dashboard is divided into two main sections: Onboarding and Offboarding.

Onboarding Section:

- Total Onboardings:** 2 (Completed: 0, In Progress: 2). A button 'Start new Onboarding' is present.
- Latest Onboarding Table:**

New Employee	Start Date	Department	View
Lyhok CHIV	11/1/2023	Operations	View
Sana NUT	11/1/2023	Operations	View

Offboarding Section:

- Total Offboardings:** 2 (On Know how: 2, On Handover: 2, On Offboard: 2). A button 'Start new Offboarding' is present.
- Latest Offboarding Table:**

Current Employee	Last Date	Offboarding Type	View
Michel DE-BRUGADA	3/31/2024	Leaving Entity	View
Rosette	1/5/2024	Leaving Entity	View

View Offboarding Request Section:

Request ID: Off00319

Process Flow: Process Started (checked) → Handover Form Sent (checked) → Know How Form Sent (checked) → Offboarding Checklist Sent (checked).

Details:

Field	Value	Action
Current Employee	Michel DE-BRUGADA	
Manager	Daniel CANCHO	
Off-boarding type	Leaving Entity	
Start date	Friday, December 1, 2023	Stop
Last date	Sunday, March 31, 2024	
Transition Duration	121 day(s)	

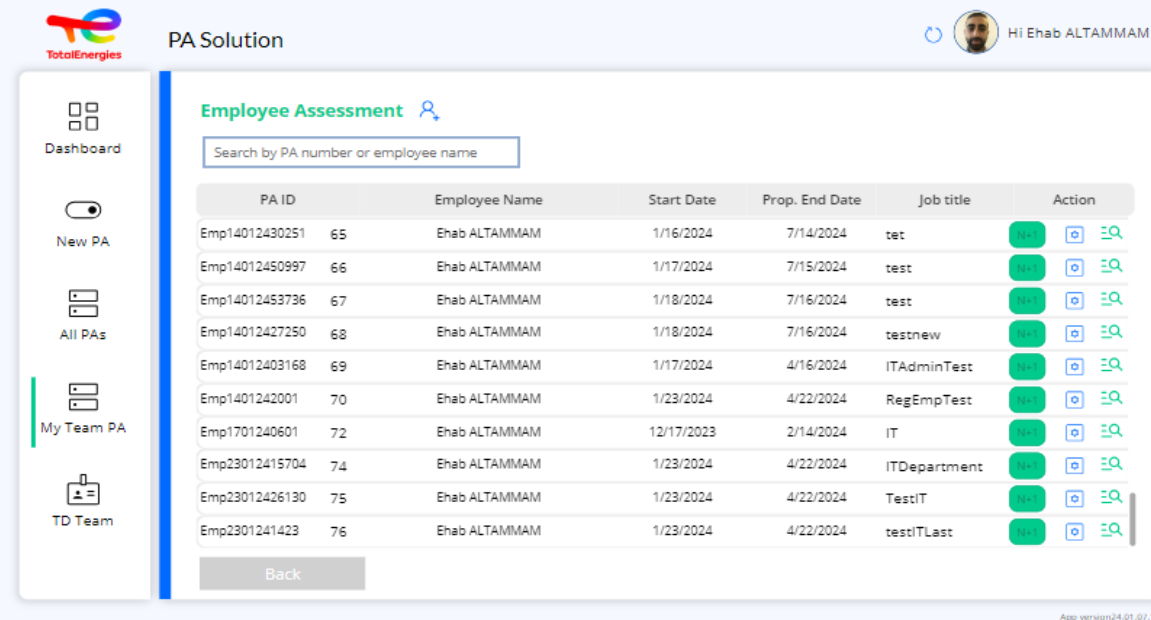

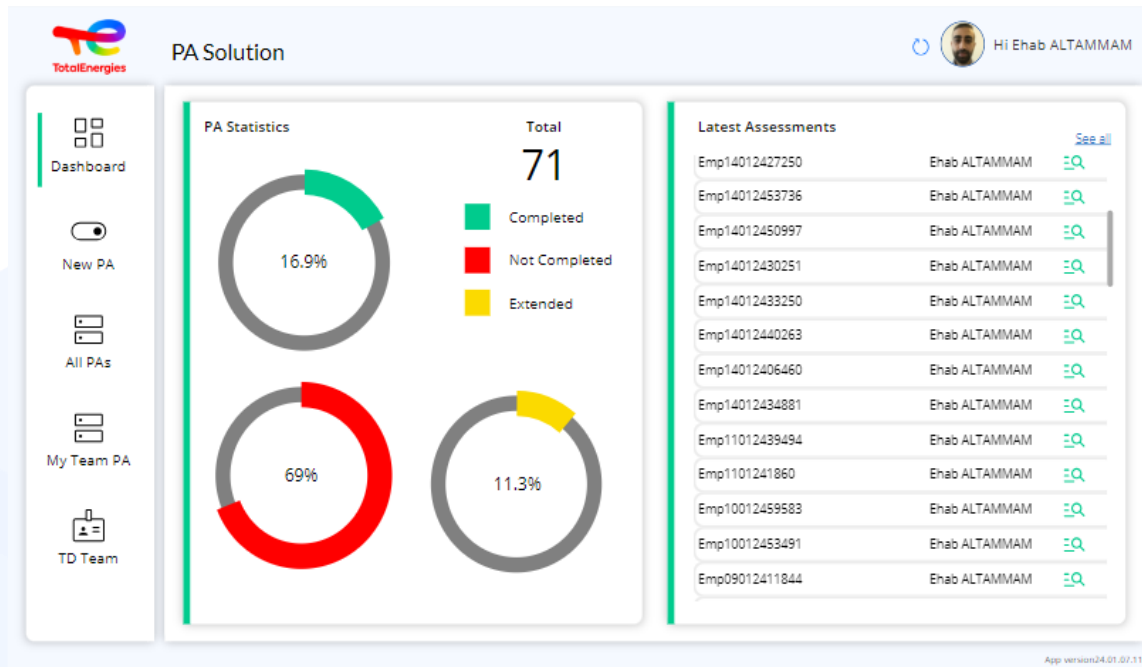

Reminders:

Reminder Type	Date
1st General Reminder	Monday, January 29, 2024
2nd General Reminder	Thursday, March 28, 2024

HR Processes Automation

Project overview: Automation of process like recruitment request, letters request, and training request.

Problems: Lack of tracking and storing

Solution: The solution was to automate the HR processes. This led to better tracking and history of records, saved time and cost, and increased the visibility of the processes

The screenshot displays the DSV HR Services Portal. The left sidebar contains navigation links: Homepage, Requests, New Request, Certification Letters, Recruitment, and Training. The main content area is titled 'Homepage - Test App' and includes a welcome message for EXT.Hussam.Awodat. It features two summary cards: 'In Progress' with 10 requests (2 HR Letters, 6 Training Requests, 2 Recruitments) and 'Requests Assigned to me' with 3 requests (3 HR Letters, 0 Training Requests, 0 Recruitments). Below these are 'Quick Links' for Request a Letter, Start a Recruitment, and Request a Training. A 'My Latest requests' table lists recent requests with details like Request ID, Date, Request Type, and Next Approver. On the right, the 'Create new Training Request' form is shown, with fields for Employee Details (Registration Type, Employee Name, Employee Email, Employee Department, Employee Job Title, Department Director Name, Nationality) and buttons for Recruitment, Training, and Employment Certification Letters. The form also includes 'Cancel request' and 'Submit request' buttons.

UIPH-Hiring an employee

Customer: UIPH

Country: Portugal
Industry: Hotel

a new employee is hired, a request is submitted through an application detailing the access they need, such as email, domain access, mobile phone, and other necessary tools. This request then enters an approval workflow. The relevant personnel receive an email with a link to the application, where they can review and take the necessary actions to grant the required access.
